Housewarming registry with "Myregistry.com"

There are chances that you may have heard about this website before because it is one of the most **popular gift** registry site in the world and has been on the market since 2005.

Not just housewarming, this site allows us to create any type of gift registry, including wedding, baby shower, graduation, etc.

Although the site has provided us with many great features, however, one of the main features of them is to enable us to add products in the registry from any store in the world.

Sites such as amazon, home depot, and whatnot **don't allow** us to create a housewarming registry. Then we can have only this alternative to add gifts from the amazon in our gift registry.

Myregistry is not a retail store, but it is an entirely web-based software that syncs other store registries into one centralized registry.

Pros

1. Mobile Application is available to manage the registry anywhere and anytime. By barcode scanner, you can instantly incorporate any product available in a physical store to your registry.
2. A Single-button gift syncing option is available. Just go to any store website and click add button from its extension (chrome)
3. The cash gift fund option is available so that guests can contribute as a group for expensive products.
4. Myregistry also allows us to **add a gift** from the local shop, which even doesn't have a website.
5. The interface is easy to use. Also, they suggest gifts to add based on the occasion of your registry.

6. Apart from the products, you can add service or experience-based products in the gift registry such as airplane tickets, horse riding lessons, etc.

7. It allows you to share a registry URL and give us a print option so that you can embed a gift registry with the **invitation** card.

8. Easy to track the products inside a registry.

Cons

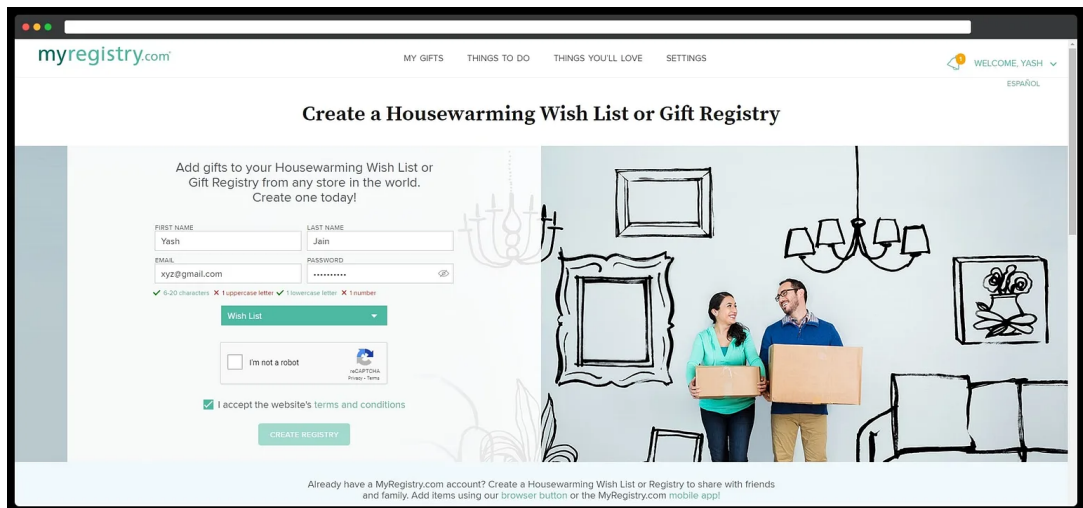

1. Although myregistry is a free tool for adding gifts and creating a registry. However, they charge you a small transaction fee (2.5%) in the case of a cash gift fund.

2. Myregistry doesn't provide a registry completion discount directly because it is not an actual store. However, when you sync other stores registries, for example, bedbathandbeyond into it, you will definitely be eligible for the registry completion discount offered by that store.
